

HKILA NEWS

OCTOBER 2020

"We are, each of us angels with only one wing;
and we can only fly by embracing one another."

- Luciano de Crescenzo

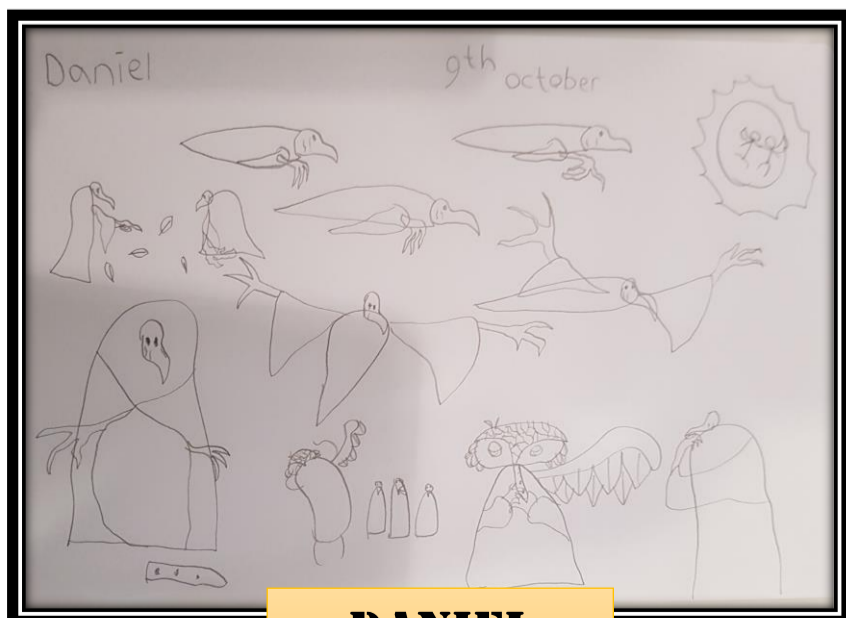

In PSHE, the class watched an animation called 'Wing'. This animation promotes anti-bullying and we discussed that by working together, we can overcome bullies and lift each other up.

HKILA NEWS

OCTOBER 2020

 "Tell me and I forget. Teach me and I remember.
 *Involve me and I learn.*" 
 - Benjamin Franklin

Our students learned that Science can be delicious.

Thanks to George Washington Carver, the first African American Scientist, we learned about the layers of the soil, nutrient depletion in soil (due to cotton crops), as well as crop rotation to introduce nutrients back into the soil.

We also used George Washington Carver's ideas on alternate uses for an oversupply of produce and we made vegetable dye.

Farewell Riku

Our plus and Advance class say farewell to Riku.

He is starting a new chapter with his family in Bangkok.

We wish you all the best and please know that you always have a home at HKILA.

Thank you to everyone for the amazing food donations. The community spirit and generosity our students have is inspiring.
